Skills

Languages & Frameworks: HTML, CSS, JavaScript, TypeScript, ReactJS, Next.js

Core Concepts: State Management, Component Architecture, RESTful API Design, Responsive Web Design

Styling: Tailwind CSS

Backend: Express.js (RESTful APIs), Prisma ORM, MongoDB

Tools & Platforms: Git, GitHub, Vercel, Supabase, VS Code, Postman

Work Experience

Ethnotech Academy — Full Stack Developer Intern (Offline)

Feb 2026 – Mar 2026

- Completed an offline, hands-on internship focused on **full stack web development** practices and industry-standard development workflows.
- Built **RESTful APIs** using **Express.js**, including route design, middleware, and structured error handling, while using **Prisma ORM** and **MongoDB** for schema design and data management.
- Strengthened understanding of backend architecture, authentication flows, and end-to-end integration between frontend and backend systems.

Projects

SP-Traders

[\[Live Demo\]](#)

- Developed a full-stack **LDO ordering platform** that enables customers to place orders with delivery details and track order status through a responsive web interface.
- Built an **admin dashboard** to manage customers, orders, and order status updates, with **role-based authentication** using Better Auth.
- Integrated **Gmail notifications with Inngest-powered asynchronous workflows** to reliably communicate important order updates and streamline business operations.

Fix Buddy

[\[Live Demo\]](#)

- Developed a **MERN stack** service marketplace that connects users with nearby local professionals (Captains) and enables them to raise and manage service requests.
- Implemented **real-time location tracking and chat** using **Socket.IO**, enabling users and professionals to communicate and monitor active service requests.
- Built backend services with **Express.js**, **MongoDB**, **Prisma ORM**, and **Socket.IO**, with **admin controls** for managing users, professionals, and service requests.

Education

MIT Degree College, Mysore – Bachelor of Computer Applications (BCA)

2023 – 2026

CGPA: 8.9/10

- **Relevant Coursework:** Object Oriented Programming, Data Structures and Algorithms, Computer Networks, Operating Systems, Cloud Computing, Computer Multimedia and Animation, Mathematics, Database Management Systems, Software Engineering.
- Maintained a strong academic record while actively building and shipping personal full stack projects alongside coursework.

Certificates

- **Meta Front-End Developer Certificate** (Coursera)
Covered core front-end concepts including HTML, CSS, JavaScript, React, and UI/UX design principles.
- **Backend Development** (Udemy – Hitesh Choudhary & Piyush Garg)
Covered backend fundamentals including Node.js, Express.js, RESTful API design, and database integration.

Achievements

- Secured **1st Place** in the Internship Hackathon by building a **MERN Stack Job Hiring Platform** within a limited time frame, competing against multiple teams.
- Collaborated with a team to design, build, and deploy multiple full stack projects end-to-end, from database design to production deployment.

Hobbies

Coding • Listening to Music • Watching Movies
