

Mohammed Sadiq

Full Stack Developer (MERN / Next.js)

mohammedsadiq68005@gmail.com | [+91-814-778-6918](tel:+91-814-778-6918) | [Portfolio](#) | [GitHub](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Full Stack Developer skilled in **JavaScript, TypeScript, React.js, Next.js, Node.js, Express.js, and MongoDB**, with experience shipping production web applications from requirements through deployment. Built a live client website and multiple full-stack projects spanning authentication, RESTful APIs, and real-time features, and won 1st place in a competitive hackathon for a full-stack job-hiring platform.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frontend: React.js, Next.js, Tailwind CSS, Responsive Web Design, Component Architecture, State Management (Zustand)

Backend: Node.js, Express.js, RESTful API Design, Prisma ORM, MongoDB

Real-Time & Auth: Socket.IO, Better Auth, Role-Based Access Control (RBAC), API Integration

Tools & Platforms: Git, GitHub, Vercel, Supabase, Postman, VS Code, SEO Fundamentals

WORK EXPERIENCE

Freelance Full Stack Developer

2026 – Present

- Deliver full-stack web solutions for external clients end-to-end – requirements gathering, UI development, API integration, responsive design, deployment, and post-launch support.
- Designed and shipped a production institutional website for **Wisdom Primary School** using **Next.js, TypeScript, and Tailwind CSS**, achieving a fully responsive layout across desktop, tablet, and mobile breakpoints.
- Implemented on-page SEO (metadata, XML sitemap, robots.txt) and integrated **Google Search Console**, improving the site's crawlability and search-indexing readiness from day one of launch.
- Partner directly with clients to translate business requirements into scalable, accessible web applications, managing the full development lifecycle through to production release.

Ethnotech Academy — Full Stack Developer Intern

Feb 2026 – Mar 2026

- Completed an intensive full-stack development internship covering backend architecture, API design, database integration, and industry-standard Git workflows.
- Designed and implemented **RESTful APIs with Express.js** using modular route architecture, custom middleware, request validation, and centralized error handling to improve reliability.
- Built database schemas and CRUD operations with **Prisma ORM and MongoDB**, improving data consistency across application modules.
- Integrated frontend and backend services into a single end-to-end workflow, implementing authentication and API communication across the application.

PROJECTS

Wisdom Primary School Website — Next.js, TypeScript, Tailwind CSS

[Live Site](#)

- Built and launched a production school website giving visitors structured access to academics, facilities, gallery, and contact information, currently live and in active use by the institution.
- Engineered reusable, responsive UI components ensuring a consistent experience across mobile, tablet, and desktop devices.
- Optimized for search visibility with SEO metadata, sitemap, robots.txt, and Google Search Console integration, and tuned assets and layouts for fast page loads.

Fix Buddy — MERN Stack, Socket.IO, Prisma ORM

[Live Demo](#)

- Built a full-stack MERN service marketplace connecting users with nearby local professionals ("Captains") to create, manage, and track service requests in real time.
- Implemented real-time location tracking and in-app chat with **Socket.IO**, enabling live communication and instant service-status updates between users and professionals.
- Designed RESTful backend services with **Express.js, MongoDB, and Prisma ORM**, and built role-based workflows with dedicated administrative controls for managing users, professionals, and service requests.

EDUCATION

MIT Degree College, Mysore — Bachelor of Computer Applications (BCA)

2023 – 2026

CGPA: 8.9 / 10

- Relevant Coursework: Object-Oriented Programming, Data Structures and Algorithms, Computer Networks, Operating Systems, Cloud Computing, Database Management Systems, Software Engineering.
- Maintained an 8.9 CGPA while independently designing, developing, and deploying multiple full-stack applications alongside coursework.

CERTIFICATIONS & ACHIEVEMENTS

- **Meta Front-End Developer** — Coursera
- **Backend Development** — Udemy
- **1st Place** — Internship Hackathon, MERN Job Hiring Platform
